

YOUR FAMILY TREE

Your family is unique, a mixture of genetics, history, experiences and stories. We use your family tree to help ensure that we consider everything that is important to you. We all know that there will be some wonderful aspects to family life – and then some that are not so great, perhaps difficult. Having an outline of your family and place within it is helpful to us as we consider your future. We don't need you to go back far in time, just your parents, siblings and any children that you and they have. If you are married or part of a couple, it would be best for you both to complete separate trees – your own. Here is a rough outline, but best to draw your own, dates of birth and death (where relevant) would be helpful.

ACTION: Please complete this form, save it as a PDF and share it with Solomon's on the portal.
